1 Purpose

This document establishes the principles and standards for the governance of compliance within the Imperial Logistics Group and its operations (Imperial Logistics).

Compliance governance is the responsibility of the Imperial Logistics Board, which delegates this task to the Group Risk Committee. The design and management of the compliance governance system is delegated to the Divisional Head of Legal and co-ordinated with support from applicable Divisional Risk Officers.

2 Scope

This policy applies to Imperial Logistics' directors and employees, and to all contractors working for or at Imperial Logistics.

Imperial Logistics' legal and regulatory compliance obligations include:

- Legal obligations:
 - legislative;
 - contractual;
 - permits, licences and other forms of authorisation;
 - common law;
 - equitable obligations; and
 - relevant industry codes and compulsory standards;
- External obligations, including:
 - regulatory policies and codes; and
 - JSE listing and other governance requirements;

- For subsidiaries that are Financial Services Providers, FAIS, FICA and their related legislative framework; and
- Imperial Logistics' policies, procedures and guidelines.

Detailed operational procedures support Imperial Logistics' legal and regulatory compliance obligations.

3 Key principles

The Compliance Governance Policy is guided by the governance principles of King IV and aligned to the group's risk assessment of the legal universe of applicable legislation of the territories in which Imperial Logistics has operations or operates cross border transactions.

The King Report on Governance for South Africa (King IV) outlines in chapter 5.4 the Governance of Compliance providing Principle 13 which states that the governing body should govern compliance with applicable laws and adopted, non-binding rules, codes and standards in a way that supports the organisation being ethical and a good corporate citizen.

The Compliance Policy establishes the overarching principles and commitment to action for Imperial Logistics with respect to achieving compliance by:

- identifying a clear compliance framework within which Imperial Logistics operates;
- promoting a consistent, rigorous and comprehensive approach to compliance throughout Imperial Logistics Limited;
- developing and maintaining practices that facilitate and monitor compliance within Imperial Logistics;
- seeking to ensure standards of good corporate governance, ethics and community expectations; and

- engendering a culture of compliance where every person within Imperial Logistics accepts personal responsibility for compliance and acts ethically and with integrity.

4 Policy overview

This Compliance Policy is aligned with Imperial Logistics' strategic objectives as articulated within our Strategic Plan and is based on best practice standards.

Imperial Logistics recognises that there are four elements for an effective compliance program:

- Commitment – Imperial Logistics Limited's commitment to, and the establishment of, a compliance program;
- Implementation – Imperial Logistics Limited's implementation of a compliance program, including ongoing education and maintenance;
- Monitoring and measuring – reporting and supervision of the compliance programme; and
- Continuous improvement – regular review and continuous improvement of the compliance program.

Imperial Logistics:

- encourages and supports an effective Board and Senior Management organisational structure which endorses an ethical and positive compliance culture
- maintains an appropriate compliance program which identifies, manages, reports, reviews, monitors and measures compliance obligations and compliance performance;
- ensures clear accountability for and ownership of the compliance programme, obligations and any compliance issues;

- reviews its procedures to ensure compliance obligations are integrated in the day to day operations;
- provides necessary resources to enable our people to understand their own personal accountability in respect of compliance and to be able to effectively carry out their responsibilities;
- conducts appropriate pre-employment screening of potential employees and contractors;
- takes seriously any failure by an individual to comply with Imperial Logistics' compliance obligations. A number of consequences may flow from an individual's actions, including, in serious matters, termination of employment or contract;
- incorporates compliance management into business plans and risk management processes;
- provides education and training as part of the implementation of the compliance program, detailing individual responsibilities, reporting and communication methods; and
